Narrative

Toronto Downtown Core – Multiple planned protests caused road closures which resulted in the Union Station Bus Terminal to be closed. Train to bus bridges were utilized to minimize passenger disruption. Protestors on train service also noted to be portraying anti-social behaviour. #protest

Security Incident/Protest Activity

Reported by: Toronto Police Service

Incident Type: Multiple Protests in Toronto Downtown Core

Date/Time of Incident: Friday February 4, 2022 @ 0800hrs to Sunday February 6, 2022 @ 1900hrs

Location: Toronto Downtown Core – Queen's Park

Protest Groups: Extinction Rebellion Greater Toronto (Wet'suwet'en Solidarity), Convoy for Freedom Toronto and Convoy for Freedom Tractor Meet

Incident Description:

Multiple planned protests occurring in the downtown and surrounding areas during February 4 to February 6, 2022 negatively affected the Metrolinx transit system. Convoy for Freedom vehicle protests in the Toronto Downtown Core caused multiple road closures including the shutdown of the Union Station Bus Terminal due to buses unable to access. An increase of anti-social behaviour was observed on Metrolinx trains. Toronto Police stood up their Major Incident Command Centre (MICC) on the morning of February 4, 2022 for stakeholders to share and receive information. CPS Investigations and Emergency Management had members virtually attend the MICC 24hrs a day for the entire weekend. The MICC was demobilized at 1900hrs on Sunday February 6, 2022.

Suspect Details: Approximately 2000 vehicles and an unknown number of protestors

Police Report Number: N/A

CCTV: N/A

Disruption to Metrolinx Services:

Multiple buses impacted by this event between 1300hrs and 1751hs on Saturday February 5, 2022. The Union Station Bus Terminal was closed. Westbound passengers were required to take a train to Port Credit GO to then take a bus to their desired destination. North/Eastbound passengers were required to take the TTC subway to Jane/407 to then take a bus to their desired destination.

Agencies Notified: TPS
